

COACHING

No organised coaching events are planned for the 2022-23 season on club waters. However, the club would like to be able to support its members, both adult and juniors, to get the most from the fishing available. It has a number of qualified coaches that are available to help with different aspects of fishing, including a Pike Anglers Club approved coach. So if it is stick float fishing on the rivers, safe handling of pike, an introduction to carp fishing or advice and guidance on tackling club waters then please contact the Coaching Coordinator to discuss how we can accommodate your needs.

Anyone wishing to use SDAA waters to offer a coaching/guiding service must first seek prior approval from the committee.

Please contact David Baker (07784 537047) for further information on any aspect of coaching.
